

ALEX CORDOBES CHEESECAKE

Alex Cordobes, Madrid, alexcordobes.es

YIELD 1 x 20 cm cake, 8 servings	ACTIVE TIME 20-30 min depending on the crust	REST 8 h chill	OVEN 320F, 40 min
ENERGY COST \$2.41 (40 min bake plus 30 min, 3.5 kW at 59 cents/kWh)			

DETAILS

- Dough: maria-cookie-base, cheesecake-shortbread-crust
- Filling: basque-cheesecake

METHOD

- Pick a base. The Maria cookie base is faster, the shortbread crust is a real pastry and needs a 10 to 12 minute blind bake first.
- Line a 20 cm springform with crumpled parchment standing well above the rim.
- Press the base in and compact it.
- Make the filling, pour it over the base.
- Bake at 320F for 40 minutes.
- Chill 8 hours before slicing.

NOTES

Basque style, so a dark scorched top is the goal rather than a fault.
Total elapsed time is dominated by the 8 hour chill, so this is a day-ahead cake.
Filed under tarts because it is a crust plus a filling, which is the same structure, even though it is a cake by name.

LEARNINGS

- Not made yet.
