

# BALANZONI

Pasta, Missy Robbins

REST

**45 minutes to 1 hour uncovered in the refrigerator**

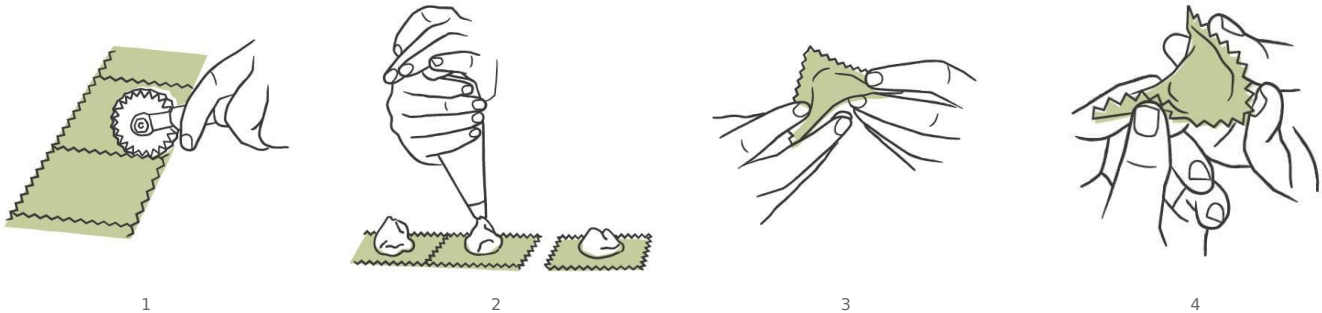

## DETAILS

- Dough: green-dough
- Region: Emilia-Romagna, city of Bologna

## METHOD

1. Make the green dough, then roll and sheet it.
2. Dust a wooden board with 00 flour. Cover a sheet pan with parchment, then dust the parchment with semolina.
3. Cut one sheet into 2 1/2-inch squares with a plain-edged or fluted dough divider. A plain or fluted pastry cutter with a ruler, or a knife with a ruler, does the same job. Keep the squares under plastic wrap or a towel.
4. Load the filling into a pastry bag cut to a 1/2-inch opening. Pipe a quarter-sized circle of filling into the middle of each square.
5. If the dough feels dry rather than moderately tacky, mist the squares with a spray bottle held 8 to 10 inches above the board so the seal will hold. Skip this if the dough is already tacky.
6. Hold a square in your palm and bring one corner across to its opposite, edges aligned, making a triangle.
7. Pinch the edge shut around the filling with thumb and index finger. Work back and forth a few times and push all the air out.
8. Press a dimple into the center of the filled side with your index finger.
9. Hold the two bottom points of the triangle and bring them together underneath the filling to form a wide ring, leaving a gap between filling and closure. Pinch that joint tight, then flatten it to roughly the thickness of the rest of the piece so it cooks evenly.
10. Set the piece on the prepared pan. Fill and fold the rest of the squares, keeping them in a single layer, and dust the pan again with semolina.
11. Work through the remainder of the sheet, then the rest of the sheets.
12. Refrigerate uncovered for 45 minutes to 1 hour to dry. Covered pieces sweat and get too wet. To hold longer, lay plastic wrap loosely over the pan and refrigerate up to 8 hours.

## NOTES

Sheet is cut into 2 1/2-inch squares, one piece per square.

Filling per piece: a quarter-sized circle, piped through a 1/2-inch pastry-bag opening.

Cutter: plain-edged or fluted dough divider.

Seal geometry: fold to a triangle, pinch the edge closed, dimple the filled side, then join the two bottom points beneath the filling into a wide ring. The book specifies a gap between filling and closure, where tortellini are drawn tight against the filling.

Air must be forced out of the edge as you pinch, and the finished joint gets flattened to the thickness of the rest of the piece for even cooking.

Needs the green (spinach) egg dough rather than a plain egg dough.

Storage: 45 minutes to 1 hour uncovered to dry, then up to 8 hours refrigerated under loose plastic.

Served with a simple butter-based sauce. The classic Bolognese treatment is butter, sage, and parmigiano.
