RELLENO DE CEBOLLA, MIRIAM GARCÍA

YIELD	ACTIVE TIME	REST
filling for 1 large empanada	**15 min**	**30 min to cool**

DETAILS

- Cook: at least 3 h, slow

INGREDIENTS

1 kg	Onions
quantity not given	Extra virgin olive oil
to taste	Salt
1	Bay leaf (optional)
1	Italian green pepper (optional)
½	Red pepper (optional)
1 tsp	Sweet pimentón (optional)
2 tins	Tinned atún or bonito, ~200 g drained (optional)

METHOD

1. Cut the onion into fine julienne, and the peppers into strips if using them.
2. Sweat it covered over low heat with the oil and a pinch of salt until the onion is translucent. With patience this takes at least 3 h, and it is better made ahead.
3. Uncover and caramelise over gentle heat, stirring, until browned and toasted to taste.
4. Add the pimentón, and the bay leaf, off the heat so they do not burn.
5. For a filling with protein, fold the drained tuna into the warm sofrito and check the salt.
6. Drain for 10 min and cool before spreading it thinly over the base. Keep the oil for the dough.

NOTES

Drain it for 10 min and cool it before assembly, and spread it thin so the empanada closes and bakes through.
Miriam García's original is only caramelised onion, oil and salt. The bay leaf, pepper, pimentón and tuna are NOT from the source — the sheet flags them as additions for a more classic profile.
Make it ahead. The sofrito needs hours and improves overnight.
Low heat and covered first, then uncovered to caramelise without burning.
Reuse the flavoured oil in the masa gramada: measure what drains off the onion and top it up with raw oil to reach the 120 ml the dough needs.
Vegan version: leave it as onion only and do not brush the dough with egg.
