3. Cocktail sauce: Egg yolk, mustard, vinegar - whisk in oil. Add ketchup, cognac, Worcestershire, Tabasco, cayenne.
4. Crab mix: Combine crab, lemon juice, tarragon, cayenne. Mix with 20g dressing + 25g cocktail sauce.
5. Plate: Season turnip with dressing, rosemary, pink pepper. Layer: turnip, crab mix, turnip. Add radish, chives, flowers. Drizzle dressing around.

NOTES

> This light, refreshing starter is simple to make yet refined enough for an elegant dinner party. Fresh crab is complemented by the sweetness of honey and acidity of sherry vinegar, with delicate turnip "pasta" sheets.
> Chef's Tips: The turnip replaces traditional pasta - it's lighter and allows the crab to shine. Make extra cocktail sauce - it keeps for a week and works with other fish dishes.

FILLING

Dressed Crab Filling

INGREDIENTS

200 g	Crab mix — crab
1 tsp	Crab mix — lemon juice
1 pinch, chopped	Crab mix — tarragon
1 pinch	Crab mix — cayenne
1 pinch	Crab mix — salt
20 g	Crab mix — honey dressing
25 g	Crab mix — cocktail sauce
50 g	Honey dressing — acacia honey

30 g	Honey dressing — sherry vinegar
75 ml	Honey dressing — grapeseed oil
1	Cocktail sauce — egg yolk
50 g	Cocktail sauce — Dijon mustard
10 g	Cocktail sauce — white wine vinegar
250 ml	Cocktail sauce — grapeseed oil
80 g	Cocktail sauce — ketchup
15 g	Cocktail sauce — cognac
5 g	Cocktail sauce — Worcestershire
10 drops	Cocktail sauce — Tabasco
1 pinch	Cocktail sauce — cayenne
1 pinch	Cocktail sauce — salt

METHOD

1. Whisk the honey with the vinegar, then whisk in the oil to make the dressing.
2. For the cocktail sauce, whisk the egg yolk with the mustard and vinegar, then whisk in the oil. Season it with ketchup, cognac, Worcestershire, Tabasco and cayenne.
3. Combine the crab with lemon juice, tarragon and cayenne.
4. Fold 20 g of the dressing and 25 g of the cocktail sauce through the crab.

NOTES

> Three of those turnip ravioli go on each plate, 15 g of crab mix on a disc with a second disc over it.
> Three sub-components: the crab mix and the two dressings that go into it. Only 20 g and 25 g of them are filling. The rest of the dressing seasons the turnip discs and is drizzled round the plate, which is plating, not filling.
> The source weighs out all three sub-components, once in its ingredient groups and again beside the steps. The cocktail sauce oil is the only place the two disagree, 250 ml in the list against 175 ml beside the step, and the list is what is recorded here.
> Nothing is cooked after assembly. This is a cold filling.
> The source's own tip: make extra cocktail sauce, it keeps a week.
> The two vinegars are not the same: sherry vinegar goes in the honey dressing, white wine vinegar in the cocktail sauce.

SHAPE

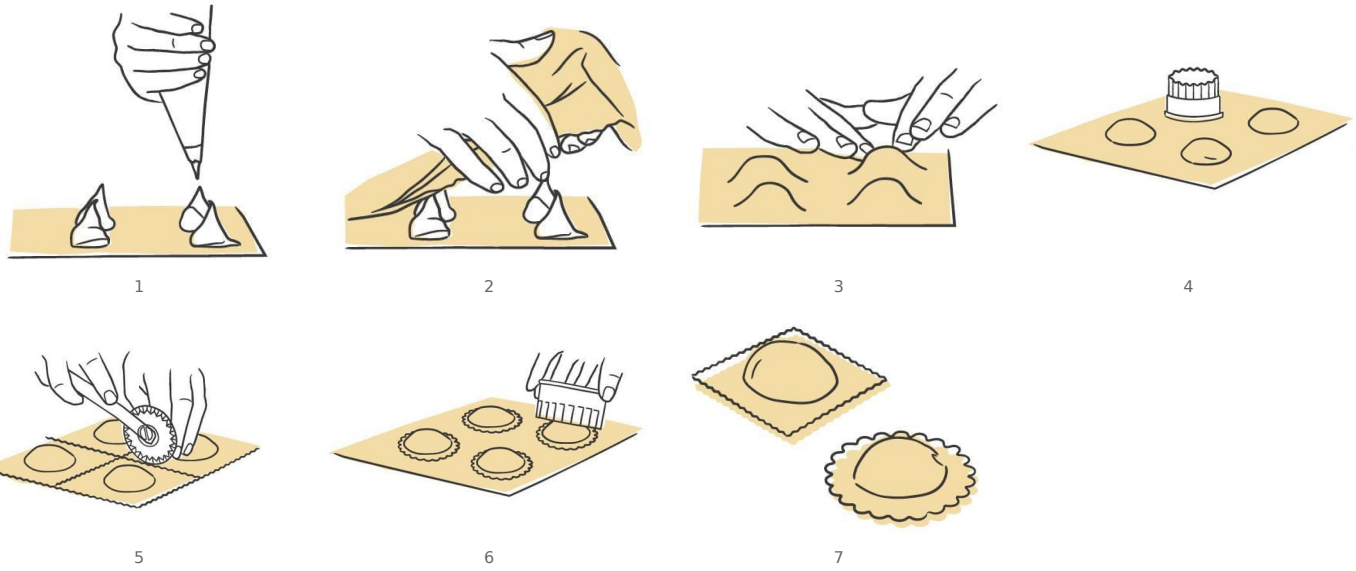

Ravioli

Region: All of Italy, north to south, and worldwide / Rest: 45 minutes to 1 hour uncovered in the refrigerator

METHOD

1. Make your chosen egg-based dough, then roll and sheet it.
2. Dust a wooden board with 00 flour. Cover a sheet pan with parchment, then dust the parchment with semolina.
3. Trim the sheets to 18-inch lengths with a knife and cut away the ragged edges. Save the scraps for soup. Keep the sheets under plastic wrap or a towel.
4. Lay one sheet on the board. Using a pastry bag cut to a 1-inch opening, pipe mounds of filling roughly 1 1/2 inches across and 1/2 inch high in an even run down the sheet, leaving about 2 inches between mounds.
5. If the dough feels dry rather than moderately tacky, mist it with a spray bottle held 8 to 10 inches above the board so the second sheet will stick. Skip this if the dough is already tacky.
6. Lay a second sheet gently over the first, edges lined up and no wrinkles.
7. Press around each mound with your two index fingers to expel the air pockets. For insurance, flip a #30 (1 1/8-inch) plain round cutter to its dull side and press gently over each mound to expel the last of the air.
8. For square ravioli, cut 2 1/2-inch squares with a fluted pastry cutter or fluted dough divider. A 2 1/2-inch fluted square cutter does the same thing.
9. For round ravioli, use a #60 (2 3/8-inch) plain round cutter. Press straight down with your palm flat on top of the cutter, then twist it clockwise under that pressure to finish the cut.
10. Lift the sheets from one end to peel away the surrounding scrap. Discard it or save it for soup.
11. Set the pieces on the prepared pan in a single layer and dust the pan again with semolina.
12. Repeat with the remaining sheets.
13. Refrigerate uncovered for 45 minutes to 1 hour to dry. Covered pieces sweat and get too wet. To hold longer, lay plastic wrap loosely over the pan and refrigerate up to 8 hours.

SHAPING

1 2 3 4 5 6 7

NOTES

Two-sheet construction from 18-inch sheets. The filling goes on the bottom sheet and a second sheet covers it.
Filling per piece: a mound 1 1/2 inches across and 1/2 inch high, piped through a 1-inch opening.
Spacing: mounds 2 inches apart. The cut is either a 2 1/2-inch square or a 2 3/8-inch round.
Cutters: #30 (1 1/8-inch) plain round cutter used dull side down to expel air, then either a fluted cutter or divider for 2 1/2-inch squares, or a #60 (2 3/8-inch) plain round cutter for rounds.
Cutting technique for rounds: press with a flat palm, then rotate clockwise under pressure so the cut goes all the way through.
Air is expelled twice before cutting, first with two index fingers and then with the dull cutter.
The author's restaurant version is round, roughly 2 inches across, with a ruffled edge. The square version is the red-sauce shape.
Storage: 45 minutes to 1 hour uncovered to dry, then up to 8 hours refrigerated under loose plastic.
Red sauce is the default finish. Otherwise the shape is a test bed for any filling.

DOUGH

Egg Dough

Makes: 954 g / Active Time: 8-10 min kneading / Rest: 30 min minimum, wrapped

INGREDIENTS

500 g	Tipo 00 flour
454 g	Egg yolks
as needed	Extra 00 flour for kneading
up to 1 tbsp, only if dry	Room-temperature water

METHOD

1. Mix the yolks lightly, without beating them.
2. Mound the flour on a wooden surface and open a well 5 to 6 inches across. Wider than that and the walls collapse.
3. Add half the yolks, drawing in flour from the inner wall with a fork, working round the circumference.
4. Add the rest the same way. If the wall breaks, scrape the escape back into the flour until the mass holds itself.
5. Knead 8 to 10 minutes: press down and away with the heel of your hand, rotate 180 degrees, fold, repeat. Scrape your hands and the board as you go.
6. Add water a tablespoon at a time only if it stays dry and refuses to come together.
7. Stop when it is smooth, firm, and springs back slightly when poked. The texture to aim for is Play-Doh.
8. Wrap and rest at least 30 minutes before rolling.

NOTES

454 g of yolks is roughly 24 to 26 eggs, so plan what the whites are for.
Yolks only, no whites and no whole eggs, which is what makes this rich and tender rather than elastic.
Dry winter air is the usual reason it will not come together. Flour the board sparingly, since excess dries it out.
Keeps 24 hours. Chilled overnight, pull it out 20 minutes before rolling.
