# EGG DOUGH

| MAKES | ACTIVE TIME | REST |
|---|---|---|
| **954 g** | **8-10 min kneading** | **30 min minimum, wrapped** |

## INGREDIENTS

| | |
|---|---|
| **500 g** | Tipo 00 flour |
| **454 g** | Egg yolks |
| **as needed** | Extra 00 flour for kneading |
| **up to 1 tbsp, only if dry** | Room-temperature water |

## METHOD

1. Mix the yolks lightly, without beating them.
2. Mound the flour on a wooden surface and open a well 5 to 6 inches across. Wider than that and the walls collapse.
3. Add half the yolks, drawing in flour from the inner wall with a fork, working round the circumference.
4. Add the rest the same way. If the wall breaks, scrape the escape back into the flour until the mass holds itself.
5. Knead 8 to 10 minutes: press down and away with the heel of your hand, rotate 180 degrees, fold, repeat. Scrape your hands and the board as you go.
6. Add water a tablespoon at a time only if it stays dry and refuses to come together.
7. Stop when it is smooth, firm, and springs back slightly when poked. The texture to aim for is Play-Doh.
8. Wrap and rest at least 30 minutes before rolling.

## NOTES

454 g of yolks is roughly 24 to 26 eggs, so plan what the whites are for.
Yolks only, no whites and no whole eggs, which is what makes this rich and tender rather than elastic.
Dry winter air is the usual reason it will not come together. Flour the board sparingly, since excess dries it out.
Keeps 24 hours. Chilled overnight, pull it out 20 minutes before rolling.

## PRESERVING

Make the full batch, then freeze whatever you will not roll out. Refrigerated dough is only good for about 24 hours, so freezing is the answer past that rather than trying to stretch it.
Divide into portions before freezing, sized to one meal, so you thaw only what you need.
Flatten each portion into a disc rather than a ball. It freezes faster and thaws evenly.
Wrap tight in plastic, then bag it. Exposed dough dries and picks up freezer burn.
Thaw overnight in the fridge, then leave it out 20 minutes to come back to room temperature before rolling.
Do not refreeze thawed dough.
