# CRAB WITH TURNIP

| SERVES | TOTAL TIME |
|---|---|
| **4** | **45 min** |

## INGREDIENTS

Not recorded in the source.

## METHOD

1. Turnip sheets: Slice turnips 0.5mm thick on mandoline. Blanch 1 min, ice bath, drain. Cut 3cm discs.
2. Honey dressing: Mix honey and vinegar, whisk in oil.
3. Cocktail sauce: Egg yolk, mustard, vinegar - whisk in oil. Add ketchup, cognac, Worcestershire, Tabasco, cayenne.
4. Crab mix: Combine crab, lemon juice, tarragon, cayenne. Mix with 20g dressing + 25g cocktail sauce.
5. Plate: Season turnip with dressing, rosemary, pink pepper. Layer: turnip, crab mix, turnip. Add radish, chives, flowers. Drizzle dressing around.

## NOTES

This light, refreshing starter is simple to make yet refined enough for an elegant dinner party. Fresh crab is complemented by the sweetness of honey and acidity of sherry vinegar, with delicate turnip "pasta" sheets.
Chef's Tips: The turnip replaces traditional pasta - it's lighter and allows the crab to shine. Make extra cocktail sauce - it keeps for a week and works with other fish dishes.

| **quantity not given** | Cocktail sauce — Tabasco |
| **quantity not given** | Cocktail sauce — cayenne |

### METHOD

1. Whisk the honey with the vinegar, then whisk in the oil to make the dressing.
2. For the cocktail sauce, whisk the egg yolk with the mustard and vinegar, then whisk in the oil. Season it with ketchup, cognac, Worcestershire, Tabasco and cayenne.
3. Combine the crab with lemon juice, tarragon and cayenne.
4. Fold 20 g of the dressing and 25 g of the cocktail sauce through the crab.

### NOTES

Three sub-components: the crab mix and the two dressings that go into it. Only 20 g and 25 g of them are filling. The rest of the dressing seasons the turnip discs and is drizzled round the plate, which is plating, not filling.
The source's entry for this recipe is a five-line method summary with no ingredient list. Those 20 g and 25 g are the only quantities it states anywhere, and it never says how much crab.
Nothing is cooked after assembly. This is a cold filling.
The source's own tip: make extra cocktail sauce, it keeps a week.
The dish intro calls the vinegar sherry vinegar. The method just says vinegar, and the same word covers both the dressing and the cocktail sauce.

SHAPE

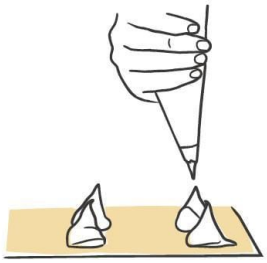

## Ravioli

*Region: All of Italy, north to south, and worldwide / Rest: 45 minutes to 1 hour uncovered in the refrigerator*

**METHOD**

1. Make your chosen egg-based dough, then roll and sheet it.
2. Dust a wooden board with 00 flour. Cover a sheet pan with parchment, then dust the parchment with semolina.
3. Trim the sheets to 18-inch lengths with a knife and cut away the ragged edges. Save the scraps for soup. Keep the sheets under plastic wrap or a towel.
4. Lay one sheet on the board. Using a pastry bag cut to a 1-inch opening, pipe mounds of filling roughly 1 1/2 inches across and 1/2 inch high in an even run down the sheet, leaving about 2 inches between mounds.
5. If the dough feels dry rather than moderately tacky, mist it with a spray bottle held 8 to 10 inches above the board so the second sheet will stick. Skip this if the dough is already tacky.
6. Lay a second sheet gently over the first, edges lined up and no wrinkles.
7. Press around each mound with your two index fingers to expel the air pockets. For insurance, flip a #30 (1 1/8-inch) plain round cutter to its dull side and press gently over each mound to expel the last of the air.
8. For square ravioli, cut 2 1/2-inch squares with a fluted pastry cutter or fluted dough divider. A 2 1/2-inch fluted square cutter does the same thing.
9. For round ravioli, use a #60 (2 3/8-inch) plain round cutter. Press straight down with your palm flat on top of the cutter, then twist it clockwise under that pressure to finish the cut.
10. Lift the sheets from one end to peel away the surrounding scrap. Discard it or save it for soup.
11. Set the pieces on the prepared pan in a single layer and dust the pan again with semolina.
12. Repeat with the remaining sheets.
13. Refrigerate uncovered for 45 minutes to 1 hour to dry. Covered pieces sweat and get too wet. To hold longer, lay plastic wrap loosely over the pan and refrigerate up to 8 hours.

**NOTES**

Two-sheet construction from 18-inch sheets. The filling goes on the bottom sheet and a second sheet covers it.
Filling per piece: a mound 1 1/2 inches across and 1/2 inch high, piped through a 1-inch opening.
Spacing: mounds 2 inches apart. The cut is either a 2 1/2-inch square or a 2 3/8-inch round.
Cutters: #30 (1 1/8-inch) plain round cutter used dull side down to expel air, then either a fluted cutter or divider for 2 1/2-inch squares, or a #60 (2 3/8-inch) plain round cutter for rounds.
Cutting technique for rounds: press with a flat palm, then rotate clockwise under pressure so the cut goes all the way through.
Air is expelled twice before cutting, first with two index fingers and then with the dull cutter.
The author's restaurant version is round, roughly 2 inches across, with a ruffled edge. The square version is the red-sauce shape.
Storage: 45 minutes to 1 hour uncovered to dry, then up to 8 hours refrigerated under loose plastic.
Red sauce is the default finish. Otherwise the shape is a test bed for any filling.

DOUGH

## Egg Dough

*Makes: 954 g / Active Time: 8-10 min kneading / Rest: 30 min minimum, wrapped*

**INGREDIENTS**

| | |
|---|---|
| **500 g** | Tipo 00 flour |
| **454 g** | Egg yolks |
| **as needed** | Extra 00 flour for kneading |
| **up to 1 tbsp, only if dry** | Room-temperature water |

**METHOD**

1. Mix the yolks lightly, without beating them.
2. Mound the flour on a wooden surface and open a well 5 to 6 inches across. Wider than that and the walls collapse.
3. Add half the yolks, drawing in flour from the inner wall with a fork, working round the circumference.
4. Add the rest the same way. If the wall breaks, scrape the escape back into the flour until the mass holds itself.
5. Knead 8 to 10 minutes: press down and away with the heel of your hand, rotate 180 degrees, fold, repeat. Scrape your hands and the board as you go.
6. Add water a tablespoon at a time only if it stays dry and refuses to come together.
7. Stop when it is smooth, firm, and springs back slightly when poked. The texture to aim for is Play-Doh.
8. Wrap and rest at least 30 minutes before rolling.

**NOTES**

454 g of yolks is roughly 24 to 26 eggs, so plan what the whites are for.
Yolks only, no whites and no whole eggs, which is what makes this rich and tender rather than elastic.
Dry winter air is the usual reason it will not come together. Flour the board sparingly, since excess dries it out.
Keeps 24 hours. Chilled overnight, pull it out 20 minutes before rolling.
