SMOKED POTATO RAVIOLI

SERVES	TOTAL TIME
4	**3 h**

INGREDIENTS

500 g	Key Components — 00 flour
200 g	Key Components — egg (whole)
500 g	Key Components — Désirée potatoes (for 400g cooked)
100 g	Key Components — butter
15 g	Key Components — smoked water
250 g	Key Components — shallots (for reduction)
400 ml	Key Components — white wine
250 g	Key Components — butter (for sauce)
4	Key Components — egg yolks (St. Ewe's preferred)
80 g	Key Components — truffle paste
to serve	Key Components — fresh summer truffle

METHOD

1. Pasta: Flour, eggs, salt, water, oil - knead 10 min, rest 2 hours.
2. Potatoes: Boil until tender, drain, rice - need 400g. Melt butter, add salt, smoked water, milk. Mix with potato, pipe into nests.
3. Shallot reduction: Shallots, wine, peppercorns - simmer 30 min, reduce.
4. Beurre blanc: Cream + reduction, boil, gradually add butter. Add vinegar, salt, strain.
5. Form: Roll thin, 15cm squares. Pipe potato nest, place yolk inside, seal with second square. Cut 12cm rounds with ring.
6. Serve: Boil 3 min. Warm beurre blanc with truffle paste. Coat ravioli, plate, top with sauce, shave fresh truffle.

NOTES

This smoked potato ravioli from Bancone is a delicious and dramatic pasta dish. A single, huge raviolo filled with a gooey St. Ewe's egg yolk is served in a rich, creamy truffle-infused beurre blanc sauce and covered in fresh summer truffle.
Chef's Tips: The key is removing all air from around the egg yolk before sealing - any air will cause the yolk to float during cooking. Use a 120mm ring for the perfect size. The smoked potato flavor is subtle but distinctive.

FILLING

Smoked Potato and Egg Yolk Filling

INGREDIENTS

500 g	Potato nest — Désirée potatoes (for 400 g cooked)
100 g	Potato nest — butter
15 g	Potato nest — smoked water
quantity not given	Potato nest — milk
quantity not given	Potato nest — salt
4	Egg yolk — egg yolks, St. Ewe's preferred

METHOD

1. Boil the potatoes until tender, drain, and pass through a ricer. You need 400 g.
2. Melt the butter, season it with salt, then add the smoked water and milk.
3. Beat that into the riced potato.
4. Pipe the mixture onto 15 cm pasta squares as nests, one per raviolo.
5. Set a raw yolk into the middle of each nest before the second square goes on.

NOTES

Two sub-components: a piped potato nest and a raw yolk that sits in its hollow. Pipe the potato as a wall, not a mound, or there is nowhere for the yolk to sit.
Get every trace of air out from around the yolk before sealing. The source is explicit that trapped air floats the yolk during cooking.
The dish file's filling note credits truffle, but the source keeps truffle out of the filling entirely: 80 g truffle paste goes into the beurre blanc and fresh summer truffle is shaved over at the table.
Milk and salt have no quantities.
500 g raw potatoes is sized to yield the 400 g cooked the recipe needs.

SHAPE

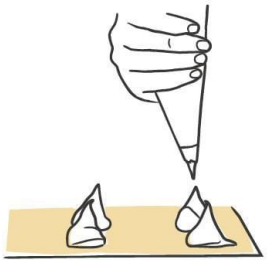

Ravioli

Region: All of Italy, north to south, and worldwide / Rest: 45 minutes to 1 hour uncovered in the refrigerator

METHOD

1. Make your chosen egg-based dough, then roll and sheet it.
2. Dust a wooden board with 00 flour. Cover a sheet pan with parchment, then dust the parchment with semolina.
3. Trim the sheets to 18-inch lengths with a knife and cut away the ragged edges. Save the scraps for soup. Keep the sheets under plastic wrap or a towel.
4. Lay one sheet on the board. Using a pastry bag cut to a 1-inch opening, pipe mounds of filling roughly 1 1/2 inches across and 1/2 inch high in an even run down the sheet, leaving about 2 inches between mounds.
5. If the dough feels dry rather than moderately tacky, mist it with a spray bottle held 8 to 10 inches above the board so the second sheet will stick. Skip this if the dough is already tacky.
6. Lay a second sheet gently over the first, edges lined up and no wrinkles.
7. Press around each mound with your two index fingers to expel the air pockets. For insurance, flip a #30 (1 1/8-inch) plain round cutter to its dull side and press gently over each mound to expel the last of the air.
8. For square ravioli, cut 2 1/2-inch squares with a fluted pastry cutter or fluted dough divider. A 2 1/2-inch fluted square cutter does the same thing.
9. For round ravioli, use a #60 (2 3/8-inch) plain round cutter. Press straight down with your palm flat on top of the cutter, then twist it clockwise under that pressure to finish the cut.
10. Lift the sheets from one end to peel away the surrounding scrap. Discard it or save it for soup.
11. Set the pieces on the prepared pan in a single layer and dust the pan again with semolina.
12. Repeat with the remaining sheets.
13. Refrigerate uncovered for 45 minutes to 1 hour to dry. Covered pieces sweat and get too wet. To hold longer, lay plastic wrap loosely over the pan and refrigerate up to 8 hours.

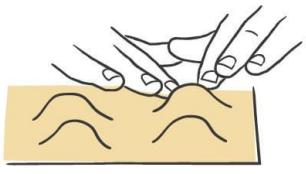

SHAPING

NOTES

Two-sheet construction from 18-inch sheets. The filling goes on the bottom sheet and a second sheet covers it.
Filling per piece: a mound 1 1/2 inches across and 1/2 inch high, piped through a 1-inch opening.
Spacing: mounds 2 inches apart. The cut is either a 2 1/2-inch square or a 2 3/8-inch round.
Cutters: #30 (1 1/8-inch) plain round cutter used dull side down to expel air, then either a fluted cutter or divider for 2 1/2-inch squares, or a #60 (2 3/8-inch) plain round cutter for rounds.
Cutting technique for rounds: press with a flat palm, then rotate clockwise under pressure so the cut goes all the way through.
Air is expelled twice before cutting, first with two index fingers and then with the dull cutter.
The author's restaurant version is round, roughly 2 inches across, with a ruffled edge. The square version is the red-sauce shape.
Storage: 45 minutes to 1 hour uncovered to dry, then up to 8 hours refrigerated under loose plastic.
Red sauce is the default finish. Otherwise the shape is a test bed for any filling.

DOUGH

Egg Dough

Makes: 954 g / Active Time: 8-10 min kneading / Rest: 30 min minimum, wrapped

INGREDIENTS

500 g	Tipo 00 flour
454 g	Egg yolks
as needed	Extra 00 flour for kneading
up to 1 tbsp, only if dry	Room-temperature water

METHOD

1. Mix the yolks lightly, without beating them.
2. Mound the flour on a wooden surface and open a well 5 to 6 inches across. Wider than that and the walls collapse.
3. Add half the yolks, drawing in flour from the inner wall with a fork, working round the circumference.
4. Add the rest the same way. If the wall breaks, scrape the escape back into the flour until the mass holds itself.
5. Knead 8 to 10 minutes: press down and away with the heel of your hand, rotate 180 degrees, fold, repeat. Scrape your hands and the board as you go.
6. Add water a tablespoon at a time only if it stays dry and refuses to come together.
7. Stop when it is smooth, firm, and springs back slightly when poked. The texture to aim for is Play-Doh.
8. Wrap and rest at least 30 minutes before rolling.

NOTES

454 g of yolks is roughly 24 to 26 eggs, so plan what the whites are for.
Yolks only, no whites and no whole eggs, which is what makes this rich and tender rather than elastic.
Dry winter air is the usual reason it will not come together. Flour the board sparingly, since excess dries it out.
Keeps 24 hours. Chilled overnight, pull it out 20 minutes before rolling.
