5 ml	Vanilla extract

2. Mix in the vanilla and salt.
3. Add the flour gradually on low, just until combined.
4. Halve the dough, flatten each into a disk, wrap and chill 30 minutes.
5. Roll to 1/2 inch on a floured surface and cut shapes.

7. Cool 5 minutes on the sheet. They crisp as they cool.

NOTES

Won The Kitchn's shortbread comparison outright, which is why it was collected.
More front-loaded work than the pan shortbreads, since it wants chilling, rolling and cutting.
Hotter than most shortbread recipes, which is what gives the crisp.
Best within a few days for crispness, though the flavour keeps improving.
