## NOTES

> This sumptuous oxtail ravioli demonstrates perfectly how cheaper cuts of meat can be transformed to a thing of beauty with time and patience. Each raviolo is served on a bed of spinach, drizzled with jus made from the braising liquid.
> Chef's Tips: Must be done a day ahead - the filling needs time to set. The oxtail jus is the key - reduce until intensely flavored.

FILLING

## Oxtail and Celeriac Filling

### INGREDIENTS

| | |
|---|---|
| **1 small** | Oxtail, cut into pieces |
| **375 ml** | Red wine |
| **1 l** | Brown chicken stock |
| **1** | Carrot, roughly chopped |
| **1** | Onion, roughly chopped |
| **1** | Garlic bulb, cut in half |
| **1 sprig** | Thyme |
| **1 tbsp** | Tomato purée |
| **1 small** | Celeriac, peeled and diced |
| **quantity not given** | Olive oil |
| **quantity not given** | Salt and pepper |

### METHOD

1. Braise the oxtail at 120 C for 4 to 5 hours with the wine, stock, carrot, onion, garlic, thyme and tomato purée until tender.
2. Pick the meat off the bones.

3. Simmer the diced celeriac gently in enough of the reduced oxtail sauce to cover it, until it is soft.
4. Mix the picked meat with the braised celeriac.
5. Form into 6 balls the size of golf balls, about 4 cm across, and chill overnight.

**NOTES**

No sub-components are separated out. The celeriac is braised here, in enough of the reduced oxtail sauce to cover it.
The source gives a quantity for everything except the olive oil, the salt and the pepper, which it lists bare. Nothing has been rounded or dropped: those three are simply absent.
Has to be started a day ahead. The source says the filling needs the overnight chill to set firm enough to handle.
6 balls for 6 servings, sealed into 8 cm rounds and boiled 6 minutes.
The braising liquid becomes the oxtail jus, outside this file.

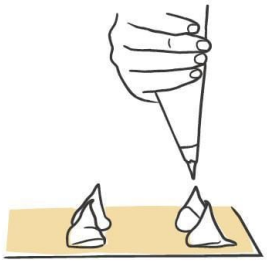

SHAPE
## Ravioli

*Region: All of Italy, north to south, and worldwide / Rest: 45 minutes to 1 hour uncovered in the refrigerator*

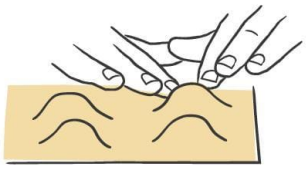

**METHOD**

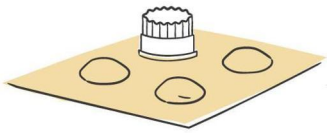

1. Make your chosen egg-based dough, then roll and sheet it.
2. Dust a wooden board with 00 flour. Cover a sheet pan with parchment, then dust the parchment with semolina.
3. Trim the sheets to 18-inch lengths with a knife and cut away the ragged edges. Save the scraps for soup. Keep the sheets under plastic wrap or a towel.
4. Lay one sheet on the board. Using a pastry bag cut to a 1-inch opening, pipe mounds of filling roughly 1 1/2 inches across and 1/2 inch high in an even run down the sheet, leaving about 2 inches between mounds.
5. If the dough feels dry rather than moderately tacky, mist it with a spray bottle held 8 to 10 inches above the board so the second sheet will stick. Skip this if the dough is already tacky.
6. Lay a second sheet gently over the first, edges lined up and no wrinkles.
7. Press around each mound with your two index fingers to expel the air pockets. For insurance, flip a #30 (1 1/8-inch) plain round cutter to its dull side and press gently over each mound to expel the last of the air.
8. For square ravioli, cut 2 1/2-inch squares with a fluted pastry cutter or fluted dough divider. A 2 1/2-inch fluted square cutter does the same thing.
9. For round ravioli, use a #60 (2 3/8-inch) plain round cutter. Press straight down with your palm flat on top of the cutter, then twist it clockwise under that pressure to finish the cut.
10. Lift the sheets from one end to peel away the surrounding scrap. Discard it or save it for soup.
11. Set the pieces on the prepared pan in a single layer and dust the pan again with semolina.
12. Repeat with the remaining sheets.
13. Refrigerate uncovered for 45 minutes to 1 hour to dry. Covered pieces sweat and get too wet. To hold longer, lay plastic wrap loosely over the pan and refrigerate up to 8 hours.

**NOTES**

Two-sheet construction from 18-inch sheets. The filling goes on the bottom sheet and a second sheet covers it.
Filling per piece: a mound 1 1/2 inches across and 1/2 inch high, piped through a 1-inch opening.
Spacing: mounds 2 inches apart. The cut is either a 2 1/2-inch square or a 2 3/8-inch round.
Cutters: #30 (1 1/8-inch) plain round cutter used dull side down to expel air, then either a fluted cutter or divider for 2 1/2-inch squares, or a #60 (2 3/8-inch) plain round cutter for rounds.
Cutting technique for rounds: press with a flat palm, then rotate clockwise under pressure so the cut goes all the way through.
Air is expelled twice before cutting, first with two index fingers and then with the dull cutter.
The author's restaurant version is round, roughly 2 inches across, with a ruffled edge. The square version is the red-sauce shape.
Storage: 45 minutes to 1 hour uncovered to dry, then up to 8 hours refrigerated under loose plastic.
Red sauce is the default finish. Otherwise the shape is a test bed for any filling.

DOUGH

## Egg Dough

*Makes: 954 g / Active Time: 8-10 min kneading / Rest: 30 min minimum, wrapped*

**INGREDIENTS**

| | |
|---|---|
| **500 g** | Tipo 00 flour |
| **454 g** | Egg yolks |
| **as needed** | Extra 00 flour for kneading |
| **up to 1 tbsp, only if dry** | Room-temperature water |

**METHOD**

1. Mix the yolks lightly, without beating them.
2. Mound the flour on a wooden surface and open a well 5 to 6 inches across. Wider than that and the walls collapse.
3. Add half the yolks, drawing in flour from the inner wall with a fork, working round the circumference.
4. Add the rest the same way. If the wall breaks, scrape the escape back into the flour until the mass holds itself.
5. Knead 8 to 10 minutes: press down and away with the heel of your hand, rotate 180 degrees, fold, repeat. Scrape your hands and the board as you go.
6. Add water a tablespoon at a time only if it stays dry and refuses to come together.
7. Stop when it is smooth, firm, and springs back slightly when poked. The texture to aim for is Play-Doh.
8. Wrap and rest at least 30 minutes before rolling.

**NOTES**

454 g of yolks is roughly 24 to 26 eggs, so plan what the whites are for.
Yolks only, no whites and no whole eggs, which is what makes this rich and tender rather than elastic.
Dry winter air is the usual reason it will not come together. Flour the board sparingly, since excess dries it out.
Keeps 24 hours. Chilled overnight, pull it out 20 minutes before rolling.
