POLENTA RAVIOLI

SERVES	TOTAL TIME
6	**5 h**

INGREDIENTS

830 ml	Key Components — water
100 g	Key Components — polenta
100 g	Key Components — Parmesan
30 g	Key Components — butter
15 ml	Key Components — olive oil
9	Key Components — artichokes
600 g	Key Components — pasta flour
12	Key Components — egg yolks
quantity not given	Key Components — polenta, for dusting
100 g	Key Components — truffle (for serving)
3	Artichoke barigoule — carrots, sliced
2	Artichoke barigoule — shallots, sliced
2	Artichoke barigoule — bay leaves
300 ml	Artichoke barigoule — chicken stock
13 g	Artichoke barigoule — rock salt
60 ml	Artichoke barigoule — white wine vinegar
100 ml	Artichoke barigoule — olive oil
2	Artichoke barigoule — celery sticks, sliced
15 g	Artichoke barigoule — thyme
40 g	Artichoke barigoule — garlic
1	Chicken stock — chicken carcass
1	Chicken stock — tomato, cut in half
1	Chicken stock — carrot, peeled and left whole
1	Chicken stock — onion, halved and blackened in a hot pan
1000 ml	Chicken stock — water
1	Chicken stock — celery stick, left whole
120 g	To plate — butter
9	To plate — tomatoes, cut into 36 pieces and oven dried

METHOD

1. Polenta: Boil water, rain in polenta, cook 1 hour stirring. Blend with Parmesan, butter. Set in tray to cool.
2. Artichokes: Clean, vacuum bag with aromatics, steam 23 mins, cool.
3. Pasta: Flour + yolks in processor, rest 20 minutes.
4. Form: Roll thin, cut polenta circles, seal, cut triangles.
5. Serve: Stock + butter + truffle + tomato + artichoke. Blanch ravioli 2 min, serve with glazing sauce and fresh truffle.

NOTES

> The rootsy artichoke and rich, earthy truffle elevate the delicate polenta ravioli to an exciting new level. This challenging recipe is certain to impress dinner party guests. Make vegetarian by using vegetable stock and omitting Parmesan.
> Chef's Tips: The polenta must cook for a full hour for proper texture. Use a pasta machine for consistent results. This is a showstopper dish for special occasions.

FILLING

Polenta Filling

INGREDIENTS

830 ml	Water
100 g	Polenta
100 g	Parmesan
30 g	Butter
15 ml	Olive oil

METHOD

1. Boil the water and rain in the polenta.
2. Cook for a full hour, stirring.
3. Blend with the Parmesan, butter and olive oil.
4. Push it through a fine sieve, pour it into a tray to a depth of 1 cm, and leave it in the fridge to set.
5. Cut circles from the set polenta for the pasta.

NOTES

> A solid filling, like the truffle gel: it is set and cut into discs before it ever meets the pasta, and the ravioli are then cut into triangles.
> The full hour of cooking is what the source insists on for texture.
> The dish name and the dish file's filling note both credit artichoke and truffle, but the source puts both in the serving sauce, not in the filling. 9 artichokes are steamed separately and 100 g truffle is listed "for serving", alongside stock, butter and tomato in the glazing sauce.
> For a vegetarian version the source keeps the cheese and swaps in a rennet-free one for the Parmesan, with vegetable stock in the sauce. It never says to leave the cheese out.

SHAPE

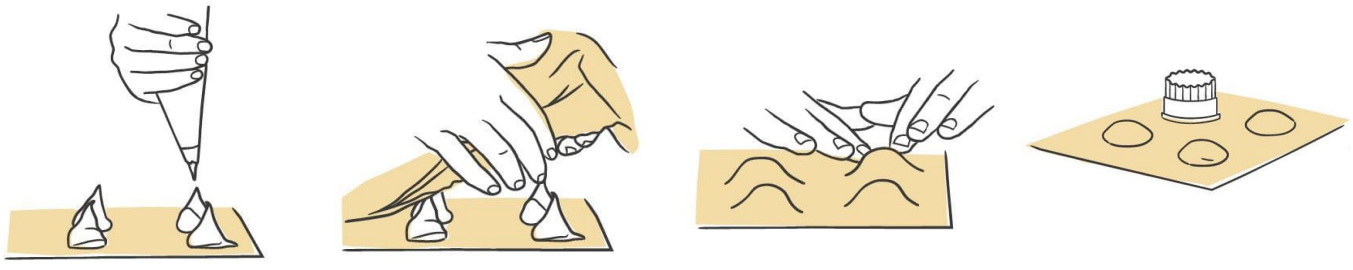

Ravioli

Region: All of Italy, north to south, and worldwide / Rest: 45 minutes to 1 hour uncovered in the refrigerator

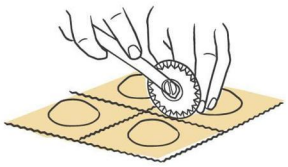

METHOD

1. Make your chosen egg-based dough, then roll and sheet it.
2. Dust a wooden board with 00 flour. Cover a sheet pan with parchment, then dust the parchment with semolina.
3. Trim the sheets to 18-inch lengths with a knife and cut away the ragged edges. Save the scraps for soup. Keep the sheets under plastic wrap or a towel.
4. Lay one sheet on the board. Using a pastry bag cut to a 1-inch opening, pipe mounds of filling roughly 1 1/2 inches across and 1/2 inch high in an even run down the sheet, leaving about 2 inches between mounds.
5. If the dough feels dry rather than moderately tacky, mist it with a spray bottle held 8 to 10 inches above the board so the second sheet will stick. Skip this if the dough is already tacky.
6. Lay a second sheet gently over the first, edges lined up and no wrinkles.
7. Press around each mound with your two index fingers to expel the air pockets. For insurance, flip a #30 (1 1/8-inch) plain round cutter to its dull side and press gently over each mound to expel the last of the air.
8. For square ravioli, cut 2 1/2-inch squares with a fluted pastry cutter or fluted dough divider. A 2 1/2-inch fluted square cutter does the same thing.
9. For round ravioli, use a #60 (2 3/8-inch) plain round cutter. Press straight down with your palm flat on top of the cutter, then twist it clockwise under that pressure to finish the cut.
10. Lift the sheets from one end to peel away the surrounding scrap. Discard it or save it for soup.
11. Set the pieces on the prepared pan in a single layer and dust the pan again with semolina.
12. Repeat with the remaining sheets.
13. Refrigerate uncovered for 45 minutes to 1 hour to dry. Covered pieces sweat and get too wet. To hold longer, lay plastic wrap loosely over the pan and refrigerate up to 8 hours.

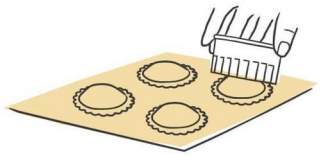

SHAPING

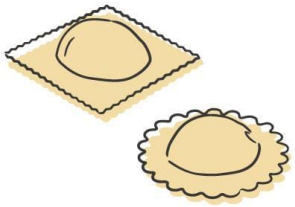

1 2 3 4

NOTES

Two-sheet construction from 18-inch sheets. The filling goes on the bottom sheet and a second sheet covers it.
Filling per piece: a mound 1 1/2 inches across and 1/2 inch high, piped through a 1-inch opening.
Spacing: mounds 2 inches apart. The cut is either a 2 1/2-inch square or a 2 3/8-inch round.
Cutters: #30 (1 1/8-inch) plain round cutter used dull side down to expel air, then either a fluted cutter or divider for 2 1/2-inch squares, or a #60 (2 3/8-inch) plain round cutter for rounds.
Cutting technique for rounds: press with a flat palm, then rotate clockwise under pressure so the cut goes all the way through.
Air is expelled twice before cutting, first with two index fingers and then with the dull cutter.
The author's restaurant version is round, roughly 2 inches across, with a ruffled edge. The square version is the red-sauce shape.
Storage: 45 minutes to 1 hour uncovered to dry, then up to 8 hours refrigerated under loose plastic.
Red sauce is the default finish. Otherwise the shape is a test bed for any filling.

DOUGH

Egg Dough

Makes: 954 g / Active Time: 8-10 min kneading / Rest: 30 min minimum, wrapped

INGREDIENTS

500 g	Tipo 00 flour
454 g	Egg yolks
as needed	Extra 00 flour for kneading
up to 1 tbsp, only if dry	Room-temperature water

METHOD

1. Mix the yolks lightly, without beating them.
2. Mound the flour on a wooden surface and open a well 5 to 6 inches across. Wider than that and the walls collapse.
3. Add half the yolks, drawing in flour from the inner wall with a fork, working round the circumference.
4. Add the rest the same way. If the wall breaks, scrape the escape back into the flour until the mass holds itself.
5. Knead 8 to 10 minutes: press down and away with the heel of your hand, rotate 180 degrees, fold, repeat. Scrape your hands and the board as you go.
6. Add water a tablespoon at a time only if it stays dry and refuses to come together.
7. Stop when it is smooth, firm, and springs back slightly when poked. The texture to aim for is Play-Doh.
8. Wrap and rest at least 30 minutes before rolling.

NOTES

454 g of yolks is roughly 24 to 26 eggs, so plan what the whites are for.
Yolks only, no whites and no whole eggs, which is what makes this rich and tender rather than elastic.
Dry winter air is the usual reason it will not come together. Flour the board sparingly, since excess dries it out.
Keeps 24 hours. Chilled overnight, pull it out 20 minutes before rolling.
