# CJALSONS

| REGION | REST |
|---|---|
| **Friuli, the Carnic Alps** | **45 minutes to 1 hour uncovered in the refrigerator** |

## METHOD

1. Make your chosen egg-based dough, then roll and sheet it.
2. Dust a wooden board with 00 flour. Cover a sheet pan with parchment, then dust the parchment with semolina.
3. Lay one sheet on the board. Cut rounds with a #70 (2 3/4-inch) fluted pastry cutter, leaving 1/8 inch between them.
4. Load the filling into a pastry bag cut to a 1/2-inch opening. Pipe a quarter-sized dab of filling into the middle of each round.
5. If the dough feels dry rather than moderately tacky, mist the rounds with a spray bottle held 8 to 10 inches above the board. Skip this if the dough is already tacky.
6. Hold a round in your palm and fold the top half over the bottom half, lining up the edges, to make a half-moon.
7. Pinch the edge shut around the filling with thumb and index finger. Work back and forth a few times and push all the air out.
8. Set the piece on the prepared pan. Fill and fold the rest of the rounds, keeping them in a single layer, and dust the pan again with semolina.
9. Do the same with the remaining sheets.
10. Refrigerate uncovered for 45 minutes to 1 hour to dry. Covered pieces sweat and get too wet. To hold longer, lay plastic wrap loosely over the pan and refrigerate up to 8 hours.

## SHAPING

1 2 3 4

## NOTES

Cut from 2 3/4-inch rounds (#70 fluted cutter), spaced 1/8 inch apart on the sheet.
Filling per piece: a quarter-sized circle piped through a 1/2-inch opening.
Seal geometry: a plain half-moon. Fold, pinch the edge closed around the filling, force the air out. No dimple, no collar, no second closure.
Mechanically identical to mezzelune and casunziei at this size. The difference lives in the filling, which is sweet-savory: cocoa, dried fruit, ricotta, and citrus zest, angled here toward savory so it still reads as a primo.
The book's own dough is an egg-based one, though the version that inspired it in Udine used a potato dough.
Storage: 45 minutes to 1 hour uncovered to dry, then up to 8 hours refrigerated under loose plastic.
Served the alpine way, with butter and shaved smoked ricotta, cocoa, and cinnamon in any combination.

DOUGH
### Egg Dough

*Makes: 954 g / Active Time: 8-10 min kneading / Rest: 30 min minimum, wrapped*

**INGREDIENTS**

| | |
|---|---|
| **500 g** | Tipo 00 flour |
| **454 g** | Egg yolks |
| **as needed** | Extra 00 flour for kneading |
| **up to 1 tbsp, only if dry** | Room-temperature water |

**METHOD**

1. Mix the yolks lightly, without beating them.
2. Mound the flour on a wooden surface and open a well 5 to 6 inches across. Wider than that and the walls collapse.
3. Add half the yolks, drawing in flour from the inner wall with a fork, working round the circumference.
4. Add the rest the same way. If the wall breaks, scrape the escape back into the flour until the mass holds itself.
5. Knead 8 to 10 minutes: press down and away with the heel of your hand, rotate 180 degrees, fold, repeat. Scrape your hands and the board as you go.
6. Add water a tablespoon at a time only if it stays dry and refuses to come together.
7. Stop when it is smooth, firm, and springs back slightly when poked. The texture to aim for is Play-Doh.
8. Wrap and rest at least 30 minutes before rolling.

**NOTES**

454 g of yolks is roughly 24 to 26 eggs, so plan what the whites are for.
Yolks only, no whites and no whole eggs, which is what makes this rich and tender rather than elastic.
Dry winter air is the usual reason it will not come together. Flour the board sparingly, since excess dries it out.
Keeps 24 hours. Chilled overnight, pull it out 20 minutes before rolling.
