YIELD	REST	OVEN	ENERGY COST
14 cookies	**5-10 min**	**350F, 9-10 min**	**$1.38 (10 min bake plus 30 min, 3.5 kW at 59 cents/kWh)**

INGREDIENTS

198 g	Unsalted butter, room temperature
130 g	Granulated sugar
130 g	Light brown sugar, packed
2	Eggs, room temperature
330 g	All-purpose flour
5 g	Baking soda
6 g	Salt
100 g	Milk chocolate chunks
100 g	Semi-sweet chunks

METHOD

1. Whisk the room-temperature butter with both sugars, vigorously, until smooth with no lumps. The air beaten in here is what makes them chewy.
2. Whisk in the eggs about 30 seconds until creamy.
3. Fold in flour, baking soda and salt with a spatula, stopping as soon as no dry flour shows.
4. Fold in both chocolates.
5. Chill 5 to 10 minutes, just enough to firm up.
6. Form 6 cm balls, place 5 cm apart, flatten each to about 1.25 cm.
7. Bake at 350F for 9 to 10 minutes. Light golden edges, centres still gooey.
8. Cool on the sheet 5 to 10 minutes. They deflate, which is expected.

NOTES

> One bowl, a whisk and a spatula. No mixer.
> The shortest chill of any recipe in the set, so it is the one to make on no notice.

LEARNINGS

- Flat 3.5 across appearance, texture and flavor. The easiest of the five made and by far the fastest, since the chill is minutes rather than hours, so it wins on convenience rather than result.
