CORZETTI WITH CHANTERELLES AND AGED GOAT CHEESE

SERVES	TOTAL TIME
4-6	**1 h plus the dough rest**

INGREDIENTS

1 batch	Egg dough
75 g	Olive oil
454 g	Chanterelles, cleaned
10 g	Garlic, finely chopped
220 g	Dry white wine
45 g	Unsalted butter, cold and cubed
5 sprigs	Thyme, leaves picked
57 g	Aged Italian goat cheese, coarsely grated

METHOD

1. Stamp 80 corzetti from the egg dough.
2. Leave small and medium chanterelles whole and halve or quarter the big ones.
3. Warm the oil in a large saute pan over medium heat, add the mushrooms and turn them so every piece is coated. Give them 2 to 3 minutes to start going soft.
4. Stir the garlic through and let it cook 20 to 30 seconds.
5. Pour in the wine and cook 5 to 8 minutes, until almost nothing is left in the pan and the mushrooms are tender without being mushy. Keep whatever juice they have given up, it becomes the sauce. Set the pan aside.
6. Salt a large pot of water heavily and bring it to the boil.
7. Cook the corzetti 1 to 2 minutes. They want to be tender, not soft.
8. While they boil, set the mushroom pan back over low heat and stir in two ladles of the pasta water, about 115 g.
9. Lift the pasta across with a spider, raise the heat to medium, add the butter and swirl for about a minute, turning the corzetti with a spoon so every face gets coated. A splash more pasta water loosens the sauce if it tightens. It is ready when it clings with a gloss.
10. Plate in a single layer and finish with the thyme and the grated cheese.

NOTES

> Two aged goat cheeses from Sardinia suit this: pantaleo is the more herbal, capra sarda the richer and deeper. Both carry a buttery, lemony note.
> Chanterelles run from early summer to late autumn, which is the window for this one.
> The pan juice the mushrooms release is half the sauce, so do not cook the wine so hard that the pan goes dry.

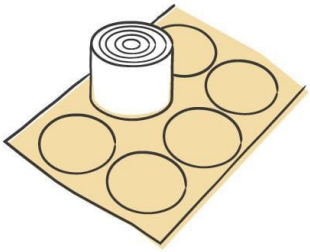

SHAPE
Corzetti

Region: Liguria / Rest: 15 to 20 minutes at room temperature

METHOD

1. Make an egg-based dough, then roll and sheet it.
2. Dust a wooden cutting board lightly with 00 flour. Set out a parchment-lined sheet pan, dusted lightly with semolina.
3. Lay a sheet on the board. Cut coins with the hollow side of the corzetti stamp, spacing the cuts 1/8 inch apart.
4. Turn the stamp over to the carved side and press it onto each coin. Press hard enough to leave a clear impression without flattening the disc. Dust one or both faces of the coin with 00 flour if it sticks in the stamp.
5. Lay the stamped coins in a single layer on the pan. Separate additional layers with semolina-dusted parchment.
6. Work through the remaining sheets the same way.
7. Dry 15 to 20 minutes at room temperature. To hold, wrap the pan and refrigerate up to 24 hours.

SHAPING

1

2

3

NOTES

Requires a corzetti stamp — a carved wooden stamp, hollow on one face to cut the coin and carved on the other to imprint it.
Coins are cut 1/8 inch apart on the sheet.
If the stamp's cutting edge has dulled and no longer cuts cleanly, cut the coins with the ring from a set of round pastry cutters, then imprint with the stamp.
Two shapes share the name. The other is a figure-eight gnocco pressed with two fingers, called croset, crosit, or crosetti. This entry is the stamped coin, also called croxetti or corzetti stampati.
Keeps refrigerated up to 24 hours.
Served with herb sauces such as pesto, or with vegetables in season. A chestnut dough version is paired with mushrooms and parmigiano in winter.

DOUGH

Egg Dough

Makes: 954 g / Active Time: 8-10 min kneading / Rest: 30 min minimum, wrapped

INGREDIENTS

500 g	Tipo 00 flour
454 g	Egg yolks
as needed	Extra 00 flour for kneading
up to 1 tbsp, only if dry	Room-temperature water

METHOD

1. Mix the yolks lightly, without beating them.
2. Mound the flour on a wooden surface and open a well 5 to 6 inches across. Wider than that and the walls collapse.
3. Add half the yolks, drawing in flour from the inner wall with a fork, working round the circumference.
4. Add the rest the same way. If the wall breaks, scrape the escape back into the flour until the mass holds itself.
5. Knead 8 to 10 minutes: press down and away with the heel of your hand, rotate 180 degrees, fold, repeat. Scrape your hands and the board as you go.
6. Add water a tablespoon at a time only if it stays dry and refuses to come together.
7. Stop when it is smooth, firm, and springs back slightly when poked. The texture to aim for is Play-Doh.
8. Wrap and rest at least 30 minutes before rolling.

NOTES

454 g of yolks is roughly 24 to 26 eggs, so plan what the whites are for.
Yolks only, no whites and no whole eggs, which is what makes this rich and tender rather than elastic.
Dry winter air is the usual reason it will not come together. Flour the board sparingly, since excess dries it out.
Keeps 24 hours. Chilled overnight, pull it out 20 minutes before rolling.
