PULLED PORK RAVIOLO

SERVES	TOTAL TIME
8	**5 h**

INGREDIENTS

500 g	Key Ingredients — pork belly (skin removed)
1/2 each	Key Ingredients — onion, carrot, leek, celery (chopped)
1 bulb	Key Ingredients — garlic, halved
5 g	Key Ingredients — smoked paprika
2 g	Key Ingredients — chilli flakes (habanero)
50 g	Key Ingredients — chorizo, diced
1 packet	Key Ingredients — gyoza wrappers

METHOD

1. Braise pork: 120°C oven, 4 hours with stock, aromatics. Shred meat.
2. Mix filling: Combine pork, chorizo, reduced braising liquid, coriander.
3. Form: 50g balls, place on gyoza wrapper, top with another, seal.
4. Cook: Steam 6 minutes, ice bath, re-steam 5 minutes to serve.
5. Sauce: Green chilli, peanut, sesame, fish sauce.
6. Serve: Cucumber pickle base, raviolo, sauce, cress garnish.

NOTES

This stunning starter combines flavours from across continents for a harmonious dish, with pulled pork belly concealed inside gyoza wrappers to make a 'raviolo'. Topped with a Thai-inspired chilli, peanut and sesame sauce, this is a must-try dish for dinner parties.
Chef's Tips: Uses gyoza wrappers instead of traditional pasta - a clever fusion approach. The Asian-influenced sauce perfectly complements the Spanish chorizo.

FILLING

Pulled Pork and Chorizo Filling

INGREDIENTS

500 g	Braise — pork belly, skin removed
1/2 each	Braise — onion, carrot, leek, celery (chopped)
1 bulb	Braise — garlic, halved
5 g	Braise — smoked paprika
2 g	Braise — chilli flakes (habanero)
quantity not given	Braise — stock
50 g	Final mix — chorizo, diced
quantity not given	Final mix — reduced braising liquid
quantity not given	Final mix — coriander

METHOD

1. Braise the pork belly at 120 C for 4 hours with stock and the aromatics.
2. Shred the meat.
3. Reduce the braising liquid.
4. Mix the shredded pork with the diced chorizo, the reduced liquid and coriander.
5. Roll into 50 g balls.

NOTES

Two sub-components: a long braise, then a cold mix that binds the shredded meat with its own reduced liquid.
The source lists smoked paprika and habanero chilli flakes among the ingredients but never states at which step they go in. They are grouped with the braise here because that is the only stage the source describes taking aromatics.
No quantity for the stock, the reduced braising liquid or the coriander.
After assembly the raviolo is steamed 6 minutes, dropped into an ice bath, then re-steamed 5 minutes to serve, so the filling is heated twice.
The chilli, peanut and sesame sauce is outside this file.

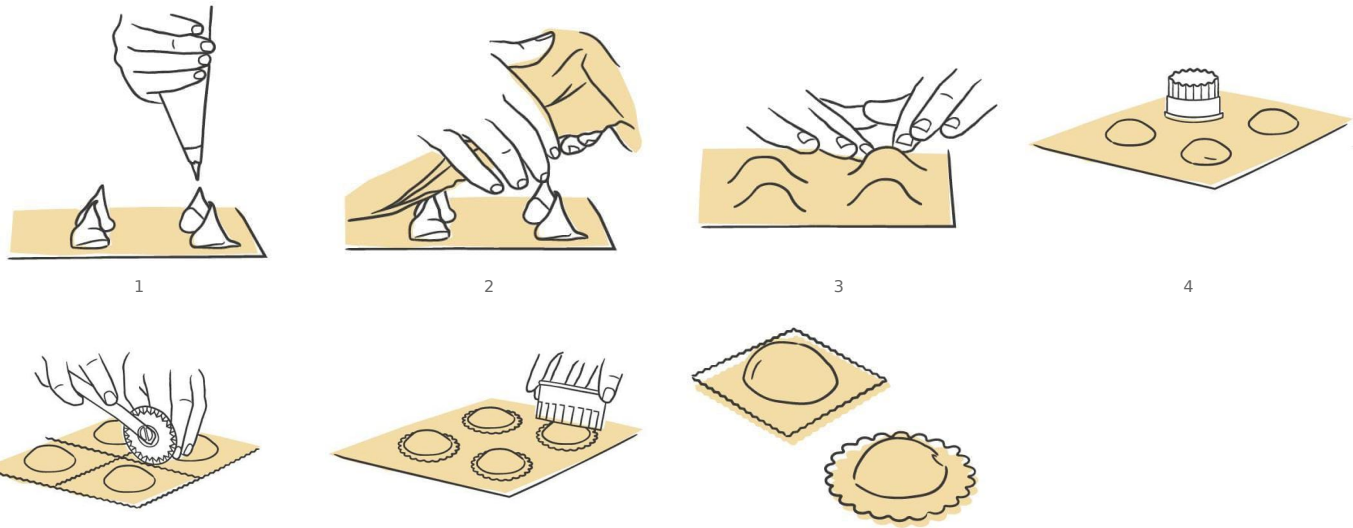

SHAPE
Ravioli

Region: All of Italy, north to south, and worldwide / Rest: 45 minutes to 1 hour uncovered in the refrigerator

METHOD

1. Make your chosen egg-based dough, then roll and sheet it.
2. Dust a wooden board with 00 flour. Cover a sheet pan with parchment, then dust the parchment with semolina.
3. Trim the sheets to 18-inch lengths with a knife and cut away the ragged edges. Save the scraps for soup. Keep the sheets under plastic wrap or a towel.
4. Lay one sheet on the board. Using a pastry bag cut to a 1-inch opening, pipe mounds of filling roughly 1 1/2 inches across and 1/2 inch high in an even run down the sheet, leaving about 2 inches between mounds.
5. If the dough feels dry rather than moderately tacky, mist it with a spray bottle held 8 to 10 inches above the board so the second sheet will stick. Skip this if the dough is already tacky.
6. Lay a second sheet gently over the first, edges lined up and no wrinkles.
7. Press around each mound with your two index fingers to expel the air pockets. For insurance, flip a #30 (1 1/8-inch) plain round cutter to its dull side and press gently over each mound to expel the last of the air.
8. For square ravioli, cut 2 1/2-inch squares with a fluted pastry cutter or fluted dough divider. A 2 1/2-inch fluted square cutter does the same thing.
9. For round ravioli, use a #60 (2 3/8-inch) plain round cutter. Press straight down with your palm flat on top of the cutter, then twist it clockwise under that pressure to finish the cut.
10. Lift the sheets from one end to peel away the surrounding scrap. Discard it or save it for soup.
11. Set the pieces on the prepared pan in a single layer and dust the pan again with semolina.
12. Repeat with the remaining sheets.
13. Refrigerate uncovered for 45 minutes to 1 hour to dry. Covered pieces sweat and get too wet. To hold longer, lay plastic wrap loosely over the pan and refrigerate up to 8 hours.

SHAPING

1 2 3 4

5 6 7

NOTES

Two-sheet construction from 18-inch sheets. The filling goes on the bottom sheet and a second sheet covers it.
Filling per piece: a mound 1 1/2 inches across and 1/2 inch high, piped through a 1-inch opening.
Spacing: mounds 2 inches apart. The cut is either a 2 1/2-inch square or a 2 3/8-inch round.
Cutters: #30 (1 1/8-inch) plain round cutter used dull side down to expel air, then either a fluted cutter or divider for 2 1/2-inch squares, or a #60 (2 3/8-inch) plain round cutter for rounds.
Cutting technique for rounds: press with a flat palm, then rotate clockwise under pressure so the cut goes all the way through.
Air is expelled twice before cutting, first with two index fingers and then with the dull cutter.
The author's restaurant version is round, roughly 2 inches across, with a ruffled edge. The square version is the red-sauce shape.
Storage: 45 minutes to 1 hour uncovered to dry, then up to 8 hours refrigerated under loose plastic.
Red sauce is the default finish. Otherwise the shape is a test bed for any filling.

DOUGH

Egg Dough

Makes: 954 g / Active Time: 8-10 min kneading / Rest: 30 min minimum, wrapped

INGREDIENTS

500 g	Tipo 00 flour
454 g	Egg yolks
as needed	Extra 00 flour for kneading
up to 1 tbsp, only if dry	Room-temperature water

METHOD

1. Mix the yolks lightly, without beating them.
2. Mound the flour on a wooden surface and open a well 5 to 6 inches across. Wider than that and the walls collapse.
3. Add half the yolks, drawing in flour from the inner wall with a fork, working round the circumference.
4. Add the rest the same way. If the wall breaks, scrape the escape back into the flour until the mass holds itself.
5. Knead 8 to 10 minutes: press down and away with the heel of your hand, rotate 180 degrees, fold, repeat. Scrape your hands and the board as you go.
6. Add water a tablespoon at a time only if it stays dry and refuses to come together.
7. Stop when it is smooth, firm, and springs back slightly when poked. The texture to aim for is Play-Doh.
8. Wrap and rest at least 30 minutes before rolling.

NOTES

454 g of yolks is roughly 24 to 26 eggs, so plan what the whites are for.
Yolks only, no whites and no whole eggs, which is what makes this rich and tender rather than elastic.
Dry winter air is the usual reason it will not come together. Flour the board sparingly, since excess dries it out.
Keeps 24 hours. Chilled overnight, pull it out 20 minutes before rolling.
