NOTES

Roux 1:1 by weight (100 g flour : 100 g fat) to 1 l milk, described by the source as the canonical thick bechamel. The fat is either 100 ml extra virgin olive oil or 100 g butter.
Desalt the bacalao properly, 24-36 h with water changes, or buy flaked cod already desalted.
Taste before you salt. The cod brings its own.
Cover to the surface while it cools so it does not skin over.
Fry in plenty of hot oil, in batches.
No rest time given, only the instruction to chill completely.
